

Production Sound Mixer

I'm very interested in mixing sound on your upcoming projects.

My crew and I work as a team, love our work, and work well with the other departments. We never slow down production; we record the best sound possible, and loathe the entire concept of "fixing it in post".

I watch Blockings, Rehearsals, and pay attention to the Rhythm of the Set. I have a state of the art, brand new sound package. These references can vouch for my easygoing style.

Sincerely,

Coleman Metts C.A.S.
